2. Event causing critical contingency

100 pipeline damaged by directional drill at Foxton Beach Road, Foxton causing large gas release. Main line valves either side of damage have tripped closed.

3. Areas of transmission system affected

All delivery points south of Foxton delivery point including the Wellington delivery points are isolated from supply from the north.

4. Summary of actions being taken to resolve event

Vector gas transmission personnel attended site and have completed an assessment of the damage. A repair action plan has been established and this is now in progress.

Notes:

(a) This notice supersedes all previous notices. It includes all demand previously directed for curtailment and all additional demands that now require curtailment.

(b) All directions issued by the CCO pursuant to the declaration of the Critical Contingency must be complied with.

(c) Retailers and Large Consumers must follow directions given by TSOs to curtail demand in accordance with Regulation 55(1) and provide TSOs with regular updates of compliance in accordance with Regulation 55(2).

(d) The communications described in the CCO Communication Plan and TSOs CCMPs continue to be activated.

(e) The communication of this notice by email is recorded on the CCO computer system and the notice is considered received by this record. The date and time of this notice is that time stamped by the CCO computer system. It is not required to reply to or acknowledge this email notice.

(f) This notice will be communicated by a truncated SMS message.

(g) This notice will be published on the CCO internet site in the public domain. Refer to <https://www.oatis.co.nz>

(h) The CCO will notify the TSOs by telephone of this notice.

(i) The CCO will also publish a Status Update Notice on the CCO internet site. The notice will contain supplementary information about the Critical Contingency and will be updated regularly.
